

Environmental Policy

Curo accepts responsibility for the harmful effects its operations can have on both the local and global environment. We are committed to reducing them.

Curo will measure its impact on the environment and set targets for ongoing improvement. The objectives of our Environmental Policy are:

- To comply with all environmental legislative and regulatory requirements;
- To promote optimum environmental awareness amongst our staff and suppliers; and
- To purchase competitively priced goods, works, and services, which minimise damage to the environment and which are derived from sustainable or renewable sources or contain recycled materials.

Objectives will be achieved by applying current best practice in environmental management.

Our Environment Officer is Sam Howe, Recruitment Administrator, who will answer any queries about this policy (email: sam.howe@curoservices.com).
